

It's Getting Cold Out There... Warm Up With RAE Coils!

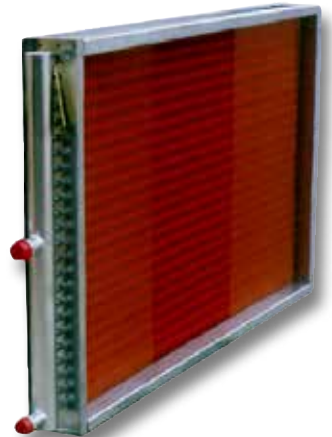

Don't get stuck out in the cold this heating season!

As a critical component in the typical HVAC system, heating coils are often used as a first line of defense against potential equipment freeze-ups. Unfortunately, mechanical systems may not always function as designed and can cause irreparable damage to the existing heating coil in your system. That's when you can count on RAE Coils! We will be there to provide a quality heating coil replacement that will meet all of your specifications with accuracy, ease, and at a competitive price.

And with our QuickDateProgram, we can get your order to you faster than ever!

RAE Coils manufactures several types of heating coils, including Hot Water Coils, Standard Steam Coils, and Steam Distributing Coils, that are within the scope of AHRI and certified in accordance with ARI Std. 410. Our heating coil experts utilize the "Total Package 2" selection software designed to help you customize the perfect coil! You can rest easy knowing all your RAE heating coils will be manufactured and perform to your exact specifications. Let RAE Coils put their heating coil expertise to work for you!

About RAE Coils

RAE Coils is a division of RAE Corporation, a manufacturer of engineered cooling and refrigeration systems headquartered in Pryor, Okla. RAE designs and manufactures products in four divisions; Century Refrigeration, RAE Coils, Refrigeration Systems and Technical Systems. The company employs approximately 250 people, with representatives around the country.

Heating Coil Product Lines

Steam & Steam Distributing Coils

Don't let equipment freeze-ups slow you down this heating season! At RAE Coils, we can build standard steam or steam distributing coils to meet almost any application. Features of RAE steam and steam distributing coils include:

- 5/8" or 1" copper tubes up to .049" tube thickness
- 304, 316, or 16-gauge G-90 galvanized sheet steel casing
- Vertical tube, vertical airflow, or offset condensate connection options available
- Tube pitched in casing or non-pitched
- Leak tested underwater

Hot Water Coils

RAE Coils can provide selections and drawings for all your hot water coil needs! For over 30 years, we have been a leading manufacturer in the replacement coil market and pride ourselves in building products to meet to customer's requirements. Features of RAE hot water coils include:

- 1/2" or 5/8" copper tubes up to .049" tube thickness
- 304, 316, or 16-gauge G-90 galvanized sheet steel casing
- Many configurations available
- Leak tested underwater to 400 PSI

Quick-Date Program

Fall in love with the most attractive dates from RAE Coils!

RAE Coils is now offering **1, 2, 3, and 4-day premium shipping!** And each Date has a money-back guarantee! If you're not completely satisfied with our QuickDate Program, RAE Coils will reduce your premium percentage paid to correlate with the date your coil actually ships. You can rest easy knowing all of your RAE Coils will be manufactured and perform to your exact specifications. And now, your coils can ship faster than ever!

Some restrictions apply. Please contact your RAE Coils Account Manager for more information.
