- Standard duct flanges or slip and drive casings
- Sizes ranging from 6" x 6" to 24" x 48"
- One or two rows deep
- 5/8" O.D. smooth wall copper tube
- Aluminum fins and galvanized casings

Fluid Coils

For both cooling and heating applications, RAE Coils can provide selections and drawings for all your fluid coil needs. Since 1989, we have been a leader in the replacement coil market and pride ourselves in building products to meet the customer's requirements!

- 5/8" or 1/2" copper tubes
- Fin spacing from 4 FPI to 14 FPI
- Leak tested underwater

Steam Coils

From industrialized applications such as paper or process plants to a small boiler in your basement, steam coils can become a part of everyday life. At RAE Coils, we can build a standard steam or steam distributing coils to meet almost any application.

- 5/8" or 1" copper tubes
- 16-gauge G-90 galvanized sheet steel casing
- Tube pitched in casing or non pitched
- Fin spacing from 4 FPI to 14 FPI
- Leak tested underwater

Evaporator & Condenser Coils

RAE Coils truly understands the many factors surrounding a proper coil application. From critical fin spacing to utilizing today's new refrigerants, RAE Coils has the expertise and capabilities to exceed your requirements. Our DX coils are available with single or multiple circuiting for condensing or heat reclaim applications, making us a one stop shop for all of your coil needs.

Industrial Coils

RAE Coils manufactures a wide variety of industrial coils to withstand the rigors of your unique needs. Our industrial coils are leak tested underwater and provide a high quality coil designed for easy maintenance, low operating costs, and longevity. We have the capability to build coils suitable for water, glycol, ammonia, and oil. Additionally, we can build refrigerant coils and steam coils for high pressures. RAE Coils can now meet all of your Industrial Coil requirements!
